The image is a composite graphic with a grey border at the top and bottom featuring a repeating cross-like pattern. The central area is dominated by a large blue sphere with white architectural blueprints overlaid on it. To the left of the sphere is a 3D model of a green house with a brown roof, surrounded by architectural drawings and blueprints. In the foreground, a wooden compass and a purple ruler are visible. On the right side, a group of men wearing white hard hats and light-colored shirts are gathered around a white architectural model of a building, appearing to be in a discussion. The overall theme is engineering, construction, and professional training.
